The Supreme Courts Decide in Your Favor

The supreme court in some states has held that a "MIDDLE MAN" is merely THE AGENT of the people. As YOUR AGENT we are entitled to a REASONABLE COMMISSION for serving you, if we serve you faithfully and well. You do not want us to obtain your groceries from another agent, who obtained them from still another agent, and so on, that a whole lot of agents may conspire to get the greatest amount of your pay check that is possible.

As YOUR AGENT, our duty is to obtain the best goods at the lowest price possible for you. If we are lazy and make no effort to serve you-simply wait till some other agent for another agent comes to us with a list of stuff that he has for sale out of some warehouse, we are not serving you. Why should we pay any old price the agent asks, and then add our commission, and turn It over to you? As your agent we are supposed to work for you, to find fresh goods, buy them direct from the producer, and deliver them to you plus a reasonable commission, and then we earn our commission, by saving you the profits and expenses that are added by a long line of middle men. Don't you think we are entitled to your trade, if we can give you better, fresher goods, for less money? We broke the back of high prices in Tonopah, and we

think we are entitled to some of your business. Don't you think you should save out of your pay check this month, enough to pay cash for your groceries during the latter part of the month? If you do this, on the following pay day you'll save about 50 cents a day on the average cost of living.
